

Research Assistant Position H₂Trust Project

MATGAS

MATGAS, a centre of excellence in CO₂ and Sustainability created to advance the research and development of materials and gases (www.matgas.org), offers a **publicist research assistant contract in the area of Hydrogen Safety**.

Though many predictions for the hydrogen economy in the last decade have proven optimistic, since it is now increasingly evident the substantial investments in this field. H₂TRUST is a safety project designed by a team of European Fuel Cell and Hydrogen (FCH) industry leaders to foster a smooth and well managed transition to full scale commercialization of FCH applications in Europe and, from a safety perspective, to aid the process by which all industry stakeholders are informed, prepared and confident, assuring. H₂TRUST shall help assure mechanisms are in place to inform all stakeholders, including the general public, adequately about H₂ related safety issues.

The candidate will be responsible for the dissemination part of the H₂TRUST project, that mainly is based on the preparation of a dissemination book, the collaboration with other partners on the preparation of the website and of a kit to suit a range of communication events (brochure, banner, presentation and video), and the organization of the final meeting inviting experts in the field of hydrogen safety.

The candidate should have degree on Advertising, Public Relations or Communication. Knowledge of English and *InDesign* software is required.
